## Daargesin

... is the name of a wolf from the american "Wolf Dreams" fantasy story.

## Releases

CD "Daargesin"  
CD "Dracul"  
CD "Polarnacht"

## Live

We have performed a real lot of gigs in Germany, together with underground bands and well-known acts like Böhse Onkelz, Crematory, Justice, Agathodaimon, Debauchery and Dry Rot.

The audience was always hooked - no matter whether it was in small clubs or in front of 3000 visitors.

## Style

"Mystic - Thrash - Metal".

"Mystic" ... are the lyrics deriving from fantasy or horror stories and old legends, written by Ingo, accompanied with powerful, slow-ceremonial riffs.

"Thrash" ... are the influences from Jürgen.

The combination of both styles, sometimes within a single song, makes up a diversified kind of music and makes Daargesin different from the rank and file of metal bands.

## CD reviews

*metalgory.de* - "If there would be fairness in musical business, Daargesin would already be a bigger act! Their music is of the same quality as the one of the well-known and greater bands ..."

*bloodchamber.de* - "... Anyway, you'll recognize a lot of variety on the album, there are tracks of all different kind of speed. Thus, the listener will never get bored while listening.

... All-in-all, an album that just gives you a great time."

## Live reports

*Rock Hard No. 73* - "DAARGESIN were playing 40 minutes of powerful 'Thrash Groove', which means that their music is really influenced by Thrash (some instrumental parts even were pure Death Metal). However, they also emphasize evident melodies. The 'Daargesin' song even contains panpipe parts. An acceptable gig."

*hardharderheavy.de* - "... Muergen and Ingo are fighting guitar battles and also Thomas is working on his axe until his fingers bleed. ... Such an enthusiastic show is exactly what the audience wants and makes them shout 'We want more!' "
